Dear [REDACTED]

This is in reply to your report of an aerial object which you observed on 8 August 1965.

Your sighting is regarded as a probable aircraft observation. Unusual conditions in the atmosphere could make the aircraft appear to make sudden changes in altitude.

Thank you for reporting your observation to the Air Force.

Sincerely,

JOHN P. SPAULDING

We have received a brief report of an unidentified observation by [REDACTED] of [REDACTED] Drive, Baltimore, Maryland. The object which he observed on 8 Aug had flashing red and green revolving lights. The reported flight included sudden changes in altitude. With this exception, the sighting is characteristic of an aircraft observation. His sighting is regarded as a probable aircraft observation with the changes in altitude attributed to an illusion or unusual conditions in the atmosphere.
